Cell and Gene Catalyst (AusBiotech & Medicines Australia)

9

Are you making feedback on behalf of your organisation?

Your organisation

13

Please select which chapter/s you would like to provide feedback on. You may provide feedback on as many or few chapters as you wish.

1. Transparency, communication, and stakeholder involvement in HTA, 2. Health technology funding and assessment pathways, 3. Methods for HTA for Australian government subsidy (technical methods), 4. Health technology funding and purchasing approaches and managing uncertainty, 5. Futureproofing Australia's systems and processes

167

In summary, considering all the draft reform options together:

How confident are you that the reform options (if implemented) will make health technology assessments better overall?

Very confident

170

Finally, do you have any further comments about the draft Options Paper or consultation you would like to make before submitting your feedback?

Thank you for the opportunity to submit. The Cell and Gene Catalyst is available to provide any advice, support or further information - please reach out to the Director.
